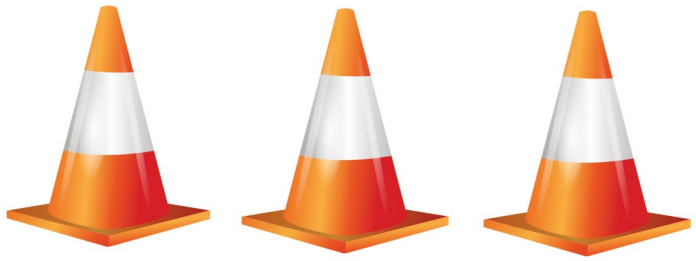
Wellness Center and Free Weight Flooring Replacement Timeline: May 1st-31st

We are excited to announce that our entire Wellness Center, Free Weight, and Express Room floors are being replaced. We are installing polished concrete in the Wellness Center and Express Room and new rubber flooring in the Free Weight area.

During the month of May, we will be setting up a *modified* Wellness Center and Free Weight area on Court A of the gymnasium. We will *not* be able to have any treadmills or Step Mill due to their electrical needs. We will also *not* be able to have the Express Room circuit equipment due to space.

This is an ideal time to try a new class, new exercise, another Y, or get active outdoors.

Thanks for your patience!



Throughout this time, please take a close look at our Gym/Group Exercise schedules for other changes.
